Liscio Switching Guide

How to Move From Liscio to LedgerStash

No demo call needed. No sales conversation. Start your free trial right now.

Ledger Stash — The AI-Powered Vault for Your Accounting Firm

Why Firms Are Leaving Liscio

Liscio is a well-built communication platform. But its pricing model is structured to grow your bill every time you do your job well — and it hides the real cost behind a demo call.

You Can't See the Real Price Without a Demo Call

Liscio's monthly pricing is listed as 'contact us' on their pricing page. You cannot calculate what you'll actually pay without booking a call with their sales team. Ledger Stash publishes every price on this page — no call required.

Usage Fees on the Three Things You Do Most

Liscio charges separately for tax gatherings, tax deliveries, and e-signatures — the three core actions of every tax season. The more clients you serve, the more overages stack on top of your per-user base rate. Ledger Stash includes all three on every plan.

Per-User Pricing Punishes Every Addition

Every seasonal preparer, part-time reviewer, or shared admin is \$49/user/month extra. You end up making software access decisions based on cost during the season when you should be focused on clients.

No AI Agents

Liscio has no Scout (client-side AI that knows each client's specific checklist in real time) and no Sage (practice intelligence that queries your entire portfolio). When your client asks what they still need at 10pm — they email you.

No Free Trial — Demo Required to Start

You cannot try Liscio without booking a demo call and going through a sales conversation. Ledger Stash: click Start Free Trial, enter your email, set up your first client. Done.

Clients Need Accounts

Liscio requires clients to create an account and use a mobile app or web login. Ledger Stash clients tap one magic link and upload from any device — no account, no password, no download.

The Real Cost Comparison

Scenario: Solo CPA, 80 clients, adds 1 seasonal preparer for 4 months.

Cost Component	Ledger Stash	Liscio
Base (1 user, 12 months)	\$588/year flat	\$588/year (\$49 x 12)
1 seasonal preparer (4 months)	Included	+\$196 (4 x \$49)
80 tax gatherings	Included	Overage charges apply
80 tax deliveries	Included	Overage charges apply
E-signatures (80+ returns)	Included	Overage charges apply
Scout + Sage AI agents	Included	Not available
Prior-year return scanning	Included	Not available
Estimated Annual Total	\$588	\$1,200-2,400+ estimated

Liscio overage rates require a demo call to confirm. Estimates based on published base pricing and reported usage-based billing.

You save \$612-1,800+/year with Ledger Stash — and that's before overages.

Feature by Feature

Feature	Ledger Stash	Liscio
Starting Price	checkmark \$49/month flat	x \$49/user + overages

Feature	Ledger Stash	Liscio
Native Mobile App	! Mobile-first browser	checkmark iOS/Android app

Liscio usage fees require a demo call to confirm. Per seat and per user refer to the same concept. Pricing as of 2026.

Your 4-Step Migration Plan

No demo call. No sales conversation. No waiting. You can be set up and sending Magic Links to clients in under 10 minutes.

1

Export Your Client List

~2 minutes

In Liscio, export your client contact list. Download names and emails as CSV. That's all you need to get started in Ledger Stash.

2

Import to Ledger Stash

~30 seconds

Upload your CSV directly. Each client gets their own private secure vault with per-client document folders automatically created.

3

Set Up Your Templates

~2 minutes

Choose from 10 pre-built PBC templates or build your own. Apply to multiple clients in one click. Your checklists are ready in seconds.

4

Send Magic Links

~20 seconds per client

Send branded Magic Links to your clients. Scout — your AI Client Agent — answers their questions from the moment they arrive. Your clients never need an account, a password, or an app.

Where Liscio Still Wins

Native mobile app — Liscio has iOS/Android apps. Ledger Stash is mobile-first in the browser, no download required.

Email integration — Liscio integrates Gmail and Outlook into the platform. Ledger Stash focuses on the document collection workflow.

If either of these is a hard requirement for your firm, that's worth knowing before you switch.

Start Your Free 14-Day Trial — Right Now

No demo call. No credit card. No commitment.

Save \$612-1,800+/year vs. Liscio — plus AI agents they can't offer
